The official figures for Bad Ax, as published some time since, are 20 better for Hastings than the above, giving kins 398 majority to offset against any possible reduction in Donn county, and the Jefferson county towns, though if the canvass is carried outside of the legal returns, there is some 75 more in Oconto and other counties to be added for Hastings. We think he is certainly elected.

Thanksgiving Day.

We published, some time since, what purport ed to be the origin of the New England Thanks. giving, and of the custom of setting apart a day in the fall or early winter, upon which to exchange congratulations with each other, and thank an overruling Providence for blessings bestowed upon us. There is much in the present | the Washington Union. It says: orcumstances which surround us to remind us of that elder day. The story is that when our stern old fathers had met together, in one of their first years in this land, it had nearly been resolved upon that a day of fasting and prayer they had come to the new land-freedom to worship God according to the dictates of their own consciences, they had gained; and the crops in abundance, and the health of the people was excellent. The suggestion was adopted, and hence the Thanksgiving Days, emoved for over 200 years in New England as nowhere else, but carried throughout the land by her sons and daughters, and those with whom they have mingled in alliance.

try, we are in the midst of hard times, and we again to the Slave Power? have reason to feel that, just now, we might occupy a reasonable time in mourning, rather than rejoicing. But, after all, our Governor's Proclamation is timely, and as it is read by the people, we doubt not that many have been recalled to a consideration of the fact that amidst many pres-

in a land of Liberty, and are tree to worship God in our own ways. As with them, at the time of the institution of the first thanksgiving, the crops of the State have been good—better than usual, as a whole—for the past year; we have, as a people, enjoyed unusual good health, having been ared all visitation from postilence or opidemic; our State has received a vast accession of soberindustrious inhabitants; we have been spared the devestations of fire; and wer has not come nigh our borders-no frantic mothers have caught their trembling babes to their breasts, to shield them from danger threatened by invading troops, mad with success. All is peace.

Let us, then, be thankful to day for that which we have, and join with the great congregation of to the Author of all good granted to us. It may well be that out of the troubles through which we are passing, we may come with lessons tearn. ed which shall do us permanent good as individuals, and as a people. The check upon our wonderful career of prosperity was doubtless

Let us revert to the parallel with which we commenced. When the first Thanksgiving was agreed upon, and the feast-simple enough-was prepared, all partock of it. Those who were able provided for the needy. Let it be so today here. There are many whose means, far from being sufficient for providing a feast, scarce. ly, if at all, avait to procure bread to keep them bills at their doors cautioning them against imfrom starving. Seek out-one such family, and position, with signs and all the outward insignia from starving. Seek out once such family, and give them cause to be thankful to-day. And of a legitimate and genuine business. There are there are these who, bereft of their natural protectors, are dependent upon public charity thre? their years of helplers infancy and childhood .-Over fifty of such are in the Protestant Orphan Asylum, and we know not how many in the Catholic Asylums. For the former, contributions are asked in several of the churches to-day .-We trust that these little ones may be liberally provided for. viake them, and the good hearts who watch over them, THANKYUL TO DAY.

This company have struggled bravely through the very serious embarassments of the last few months, and are now fairly " out of the woods." They have funded some \$300,000 of their floating debt; have got the finances into good shape, their road completed, well-stocked and in excellent order, and having "taken in sail" for the winter, will be ready, with the return of Spring, for a very active business. We do not believe that there is a Railroad Company in the North West in bester condition than the Milwaukee and Mississippi R. R.

AN UNFORTUNATE CITY, -The Rochester Union states that the City of Coburg, Canada, is without money, credit or City Council. Ithus loaned its credit for railroads and local improvements until it has none left to loan or pledge. Its people are taxed balf a dollar on each pound's valuation, its treasury is empty, and finally it is without local government-the Councellors or city fithers having all resigned. The Governor-General of England is considered in England responsible for the troubles in India, and we have no doubt that the American People will hold President Buchman responsible for the now imminent danger of a war in Utah. Every four years the people have a reckoning with their Presidents. Pierce was weighed and found wanting in the canvass of 1856, and kicked into the bottomless political abyse. The whole garrison of Sebastopol was under arms on the occasion, and rendered millitary bonors to the coffins as they were transported from the cemetery to the French ship waiting to receive them.

A Homorice at Sea.
[From La Gronka, Nov. 17]
The Secretary of State at Electric has communiesected to the Minister Piculpotentiary of the United States in Spain, the following declaration, transmitted through the Minister of Marine, and

transmitted through the Minister of Marine, and made before the Captain of the Port at Tarrago-ins, by D. Jose Bosch, captain of the Spanish brig Jacinta:

On the 22d of July het, at 7 o'clock in the morning, in north latitude 37 dag, 8 min. and west longitude 35 dag, 30 min., being bound for Spain from New Orleans, after being out 33 days, 1 p. received a boat with propie, who were waving a white handkerchief and pulling in the direction of my bite. Beinging they were shiverecked. a white handkerchief and pulling in the direction of my brig. Betteving they were shipwrecked. I instantly gave orders to bear down to them, and being side by side, they told me that two days before, being out in pursuit of a whale, they, during a squall, had lost sight of their bank, in which they had left the wife of the captain, who was the man who was speaking to me, adding that she was in an interesting position, having with her besides a little boy, two other oversons.

ersons. A little further north, I perceived two other Auther the transfer forth, a perceived two observed the observed that Alte, Capt. Thomas B. Lawrence, of New Bedford, whence he had sailed 48 days before. The men of the said boxts, numbering in all eighteen, havof the said boxts, humbering in an eignieer, having been taken on board, exhausted from tatigue,
were provided with tood and clothing, and seeing
the despair of the captain on account of the loss
of his family and his versel in the mist of the
tes, I resolved at any hazard to go in quest of
them.
The stormy weather, the foreign tolom of the
captains—which did not termit me to clearly un-

septim—which did not permit me to clearly un-lessiond the direction where the back might be densiand the direction where the bark might be found—the time they had pa-sed since they had lost eight of their ship, and my own obligation-to continue my course, after having experienced thirty-three days of bad weather—all these powerful reasons did not induce me to give up my resolution of viding those unfortunate men and consoling them in their affliction, and trusting to Providence and my good cause I steered to the North.

the North.

We passed the day without perceiving any yessel, and the night overtaking as without having attained our purpose, we passed it with the utmost vigilance, the captain being in a state of extraordinary prostration and anxiety, which in-creased my determination to continue my enter-prise. The dawn of the 23d came on, and my prise. The dawn of the 23d came on, and my vigilince was renoubled; at 10 A, M., the water at the masthead desorted a sail bearing N. N. E. I immediately stood for it; and with a freshearing wind, at 11 o'clock I distinguished a bork. I induced the captain to go oloft, encouraging him and trying to console him in every possible manner, to see whether he could make her out; and at half pust eleven God had crowned our undertaking and falfilled my with—it was the bark Alto. The transports of Captain Lawrence were unbounded; he embraced me and offered were unbounded; he embraced me and offered me a large amount of money when he should get on board, which I refused, for I would not crown

boars and carried the crew and their captain to their bark, where, in fact, I found a poor young lady, with a babe in her arms, breathless and in the greatest agony. The captain, after the first effusions of his joy, repraced his offers, insisting upon my accepting them, but which I relused as before, and having received the cenedictions of all on board, I returned to my ship to continue

They insure those who take them a good appetite and healthy digestion.

Each pill that is taken gives new life to the blood—they purify it, take from it all impure deposits, and equalize its olvedistics.

One or two dozes of Radway's Regulators will entirely remove at distressing synaptoms of Dyspepsia, Joundice, Nerrocances, Indigestion, Coatvences, Lafer organization, in the case, either in can be appropriately in the case, either in can be appropriately of the case, either in can be appropriately or western of the case of the companion of the case of Radway's and the case, either in can be prompted out and Regular Periods, if Rodway's Regulators are selected with its regularities, or western gither and infirm.
